

CANAL QUARTER @

WELCOME TO CANAL QUARTER @ KINGSBROOK

A new and exclusive phase within the multi-award winning Kingsbrook development in Aylesbury, with homes surrounded by green open space and many over looking the pond.

Canal Quarter is the heart of this popular community with a range of new amenities, which include shops, allotments, sports facilities & schools. Homes are set amongst acres of green open space, with some overlooking the 'Railway Park', close to the orchard, and are also just a short walk from every day facilities.

The travel hub is close by and has a regular bus connection to Aylesbury train station, ideal for those commuting to London.

CREATING A SUSTAINABLE COMMUNITY

WHERE FAMILIES AND NATURE CAN THRIVE

Throughout the planning process before starting build, we consider where we can introduce nature and where we can strengthen it.

At David Wilson Homes, we do more than simply craft beautiful homes and desirable developments.

We design and build great places that meet the highest standards, and that promote sustainable, healthy and happy living for our customers.

We know we must give our customers confidence that their homes are designed and built to meet the challenges of the future. We do this through creating places where people and nature can thrive.

KINGSBROOK – A LOCATION LIKE NO OTHER

Welcome to Kingsbrook, a landmark development set within the heart of the beautiful Aylesbury Vale. Its design features a number of unique villages, individual in character and situated within acres of exceptional wild meadowland and green parkland.

- With 60% of the development dedicated to green space, living in harmony with nature will be central to your lifestyle
- British Home Awards winner for 'Best Partnership' with the RSPB
- Direct bus to Aylesbury town centre & station every 30 minutes - reach London in just over an hour
- A 250 acre Nature Reserve, canal walks & various cycle routes on your doorstep
- Just a few minutes' drive or a 10-minute cycle from the bustling centre of Aylesbury
- Good road links nearby - under a 5 minute drive to the A41

IDEALLY LOCATED FOR YOUR FAMILY

Each of the villages within Kingsbrook has been carefully planned to blend into the environment and an excellent range of services to support all of your family's needs has been integrated too.

- A new nursery, crèche facilities, two primary schools & a secondary school should ensure access to good education within walking distance
- Community centres & local shops will also be built, providing the peace of mind that everything you need is close by
- Endless opportunities to enjoy this outstanding landscape which includes three large parks, equipped play areas, sports facilities, cycle & walking routes
- There will be community allotments to plant & tend, as well as orchards

GIVING NATURE A HOME AT KINGSBROOK

Nature makes people feel healthier and happier, so at Kingsbrook we are pioneering a whole new 'nature-friendly' approach to designing a development that will enable the natural world to thrive. Working in close consultation with the RSPB, our aim is to encourage natural and garden wildlife to live harmoniously alongside you. Plenty of open spaces have been retained and shrubs, wildflowers and hedgerows have been introduced to create the perfect habitat in which wildlife can thrive. Residents will be encouraged to get planting to support the repopulation of our bees and butterflies to help turn around their decline.

Surrounded by countryside and bordered by the Grand Union Canal, this pioneering development has been carefully planned to ensure that over half of the land is retained as wildflower meadows, parks and green space, creating a beautiful environment where nature can also have a home. Alongside the RSPB, we are using new methods to help encourage nature back once we have finished building Kingsbrook – from a new brick that doubles as a swift nest box to the installation of wildlife homes where hedgehogs can hibernate safely.

The RSPB monitor the progress of our wildlife community as each village is built, and the success of this unique project will be shared to help determine new standards for development planning across the UK.

FORTY MINUTES FROM YOUR NEW HOME

Aylesbury Town Centre
6-minute drive or 10-minute cycle

Endless countryside to explore
on your doorstep

Aylesbury Train Station
7-minute drive or 12-minute cycle

Whipsnade Zoo
26-minute drive

Luton Airport
40-minute drive

OUTSTANDING DESIGN

David Wilson Homes are built around the way you want to live. Careful consideration and attention to detail go into every home we^ build – our homes are flexible and adaptable to suit every lifestyle. Open-plan living spaces are integral to our design, helping you make the most of space and natural light, which allows every room to be enjoyed to its maximum potential.

We also know how vital outdoor space is in creating places in which people love to live – whether it's gardens or landscaped areas. That's why we have made sure there is plenty surrounding these homes, with over 60% of the development dedicated to open space, for the whole neighbourhood to enjoy.

WE'RE HELPING TO MAKE YOUR HOME MORE

ENERGY-EFFICIENT

We create low-carbon and efficient homes that are designed and built for better living and meet the challenges of the future.

[^]Indicative figures, based on HBF "Watt a Save" report published January 2024.

FEATURES WITHIN YOUR DAVID WILSON HOME

Flue Gas Heat Recovery

Boiler efficiency is increased and can save up to 50% of the gas used to heat hot water annually.

Photovoltaic Panels

Photovoltaics means converting light into electricity and will be installed on the roof depending on the orientation of the specific property.

Highly-efficient Insulation

The enhanced thermal performance within the external walls and loft space, keeps the warmth in and the cold out, helping with the energy-efficiency of the home.

Waste Water Heat Recovery Systems

The outgoing waste warm water is used to pre-heat the fresh cold mains water coming into the home, reducing the energy required to heat water up.

Airtightness

Focuses on the elimination of all unintended gaps in the external structure of the building, an essential part of creating an energy-efficient living environment.

Fibre Connectivity

Decentralised Mechanical Extract Ventilation (d-MEV)

Quiet, small fans that run continuously will extract the stale air out of the room.

Water Savings

The latest water and energy saving technologies used in our kitchen and bathroom fittings could help reduce consumption per day per person compared to the national average.

Argon-filled Double-glazing

Lets the heat in and keeps the cold out.

Larger Radiators

With the added conservation of power and energy use, lower temperatures will be used for heating radiators which results in them being wider than average.

Increased Floor Insulation

DAVID WILSON HOMES

NEW HOMES

Quality Code

Housebuilders and developers who build new homes will be expected to register with the [New Homes Quality Board](#) (NHQB). As long as a house-builder or developer has followed the correct registration process, including completing the necessary training, introducing a complaints procedure, and following other processes and procedures that are needed to meet the requirements of this New Homes Quality Code (the code), they will become a registered developer.

Registered developers agree to follow the code and the New Homes Ombudsman Service, including accepting the decisions of the New Homes Ombudsman in relation to dealings with customers. If a registered developer does not meet the required standards, or fails to accept and act in line with the decisions of the New Homes Ombudsman, they may have action taken against them, including being removed from the register of registered developers.

The code sets out the requirements that registered developers must meet. The code may be updated from time to time to reflect changes to industry best practice as well as the decisions of the New Homes Ombudsman Service.

All homes built by registered developers must meet building-safety and other regulations. All registered developers should aim to make sure there are no snags or defects in their properties before the keys are handed over to a customer. If there are any snags or defects, these should be put right within the agreed timescales.

What the code covers

For the purposes of this code, 'customer' means a person who is buying or intends to buy a new home which they will live in or give to another person. (If a new home is being bought in joint names, 'the customer' includes all the joint customers.) However, the New Homes Quality

Board have also started work to consider other groups of customers and what they should be able to expect from a new home. This includes shared owners and people who are buying a new home to let to other people. Any changes the New Homes Quality Board make to the code to reflect the needs of other groups of customers will be developed through consultation, and they will continually assess and review the effectiveness of the code, and any new laws or regulations that apply. Other areas which are not covered by the code are claims for loss of property value or blight (where a property falls in value or becomes difficult to sell because of major public work in the area), personal injury or claims that are not covered by the scheme rules of the New Homes Ombudsman Service.

IMPORTANT NOTICE:

These particulars are for illustration only. We operate a policy of continuous product development and individual features such as windows and elevational treatments may vary from time to time. Consequently these particulars should be treated as general guidance only and cannot be relied upon as accurately describing any of the Specified Matters prescribed by any Order made under the Property Misdescriptions Act 1991. Nor do they constitute a contract, part of a contract or a warranty. Computer generated images are indicative only and do not accurately depict individual plots. Photography depicts typical David Wilson Homes developments. Photography, computer generated imagery and floorplans depicts a representation of the interiors, they are indicative only and do not accurately depict a specific plot. As such they are not intended to be used for carpet sizes, appliances, spaces or items of furniture. Every effort has been made to give an accurate representation of the plot layouts with final dimensions due for release. Please check with the Sales Adviser at point of sale for final confirmed dimensions of the specific plot. Kitchen designs are indicative only and are subject to change. Travel times and distances are as sourced from Google Maps.co.uk. We are the only major national housebuilder to be awarded this key industry award 13 years in a row. "We" refers to the Barratt Developments PLC group brands including Barratt London, Barratt Homes and David Wilson Homes. Based on HBF star rating scheme from 2010 to 2022 derived from the NHBC national new homes survey at eight weeks, over 90% of Barratt Developments PLC group customer would recommend our brands to a friend.
