# CAPTURE A MOMENT IN *TIME*

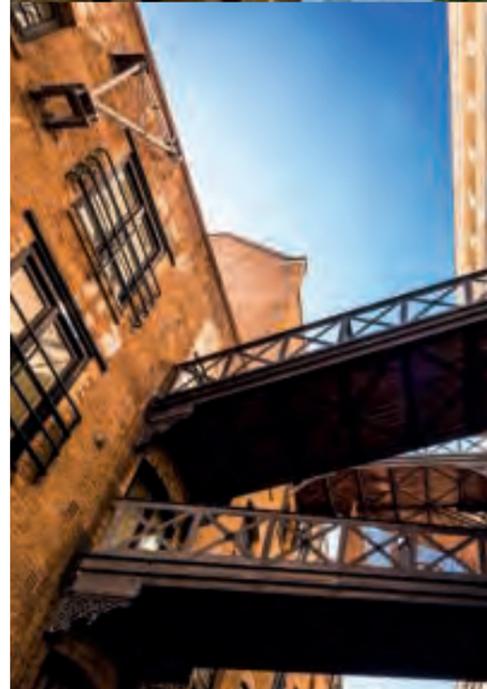

Start your **next chapter** in a part of **London** with a fascinating back story.

While Bermondsey is mentioned in the Domesday Book of 1086, the area really made its name in Victorian times, when it became a pulsating hub of commercial activity. With the development of the Surrey Canal, countless trades such as leather works and London's first train line (the London to Greenwich Railway), Bermondsey helped to power a city built on international trade.

The old Victorian businesses may have long gone, but the area still retains architectural echoes of this industrial heritage. More importantly, it's experiencing a revival, with an ambitious regeneration plan that will make it an even livelier and more attractive place to live.

Live at **Bermondsey Heights** and be part of an **exciting future**.

 **Bermondsey's 3.5 miles of riverside** were lined with warehouses and wharves, including **Butler's Wharf**, now a popular destination.

# INVESTING IN THE *FUTURE*

Bermondsey Heights lies at the heart of the regeneration of South Bermondsey. A proposed new London Overground station is planned just 400 metres from the development at Surrey Canal Road, providing fast rail connections to Canada Water, Clapham Junction, Canary Wharf, Peckham Rye and Shoreditch High Street.

In addition, improved pedestrian and cycle infrastructure, along with three new bus routes will also help connect people and places in this exciting south-east London hotspot.

Ambitious plans for the wider area include a 30-acre mixed-use project seeking to create new homes, new public spaces, a thriving business district with office space, workshops, cafés and restaurants, a creative and digital hub and local retail, as well as a state-of-the-art sports complex and arena.

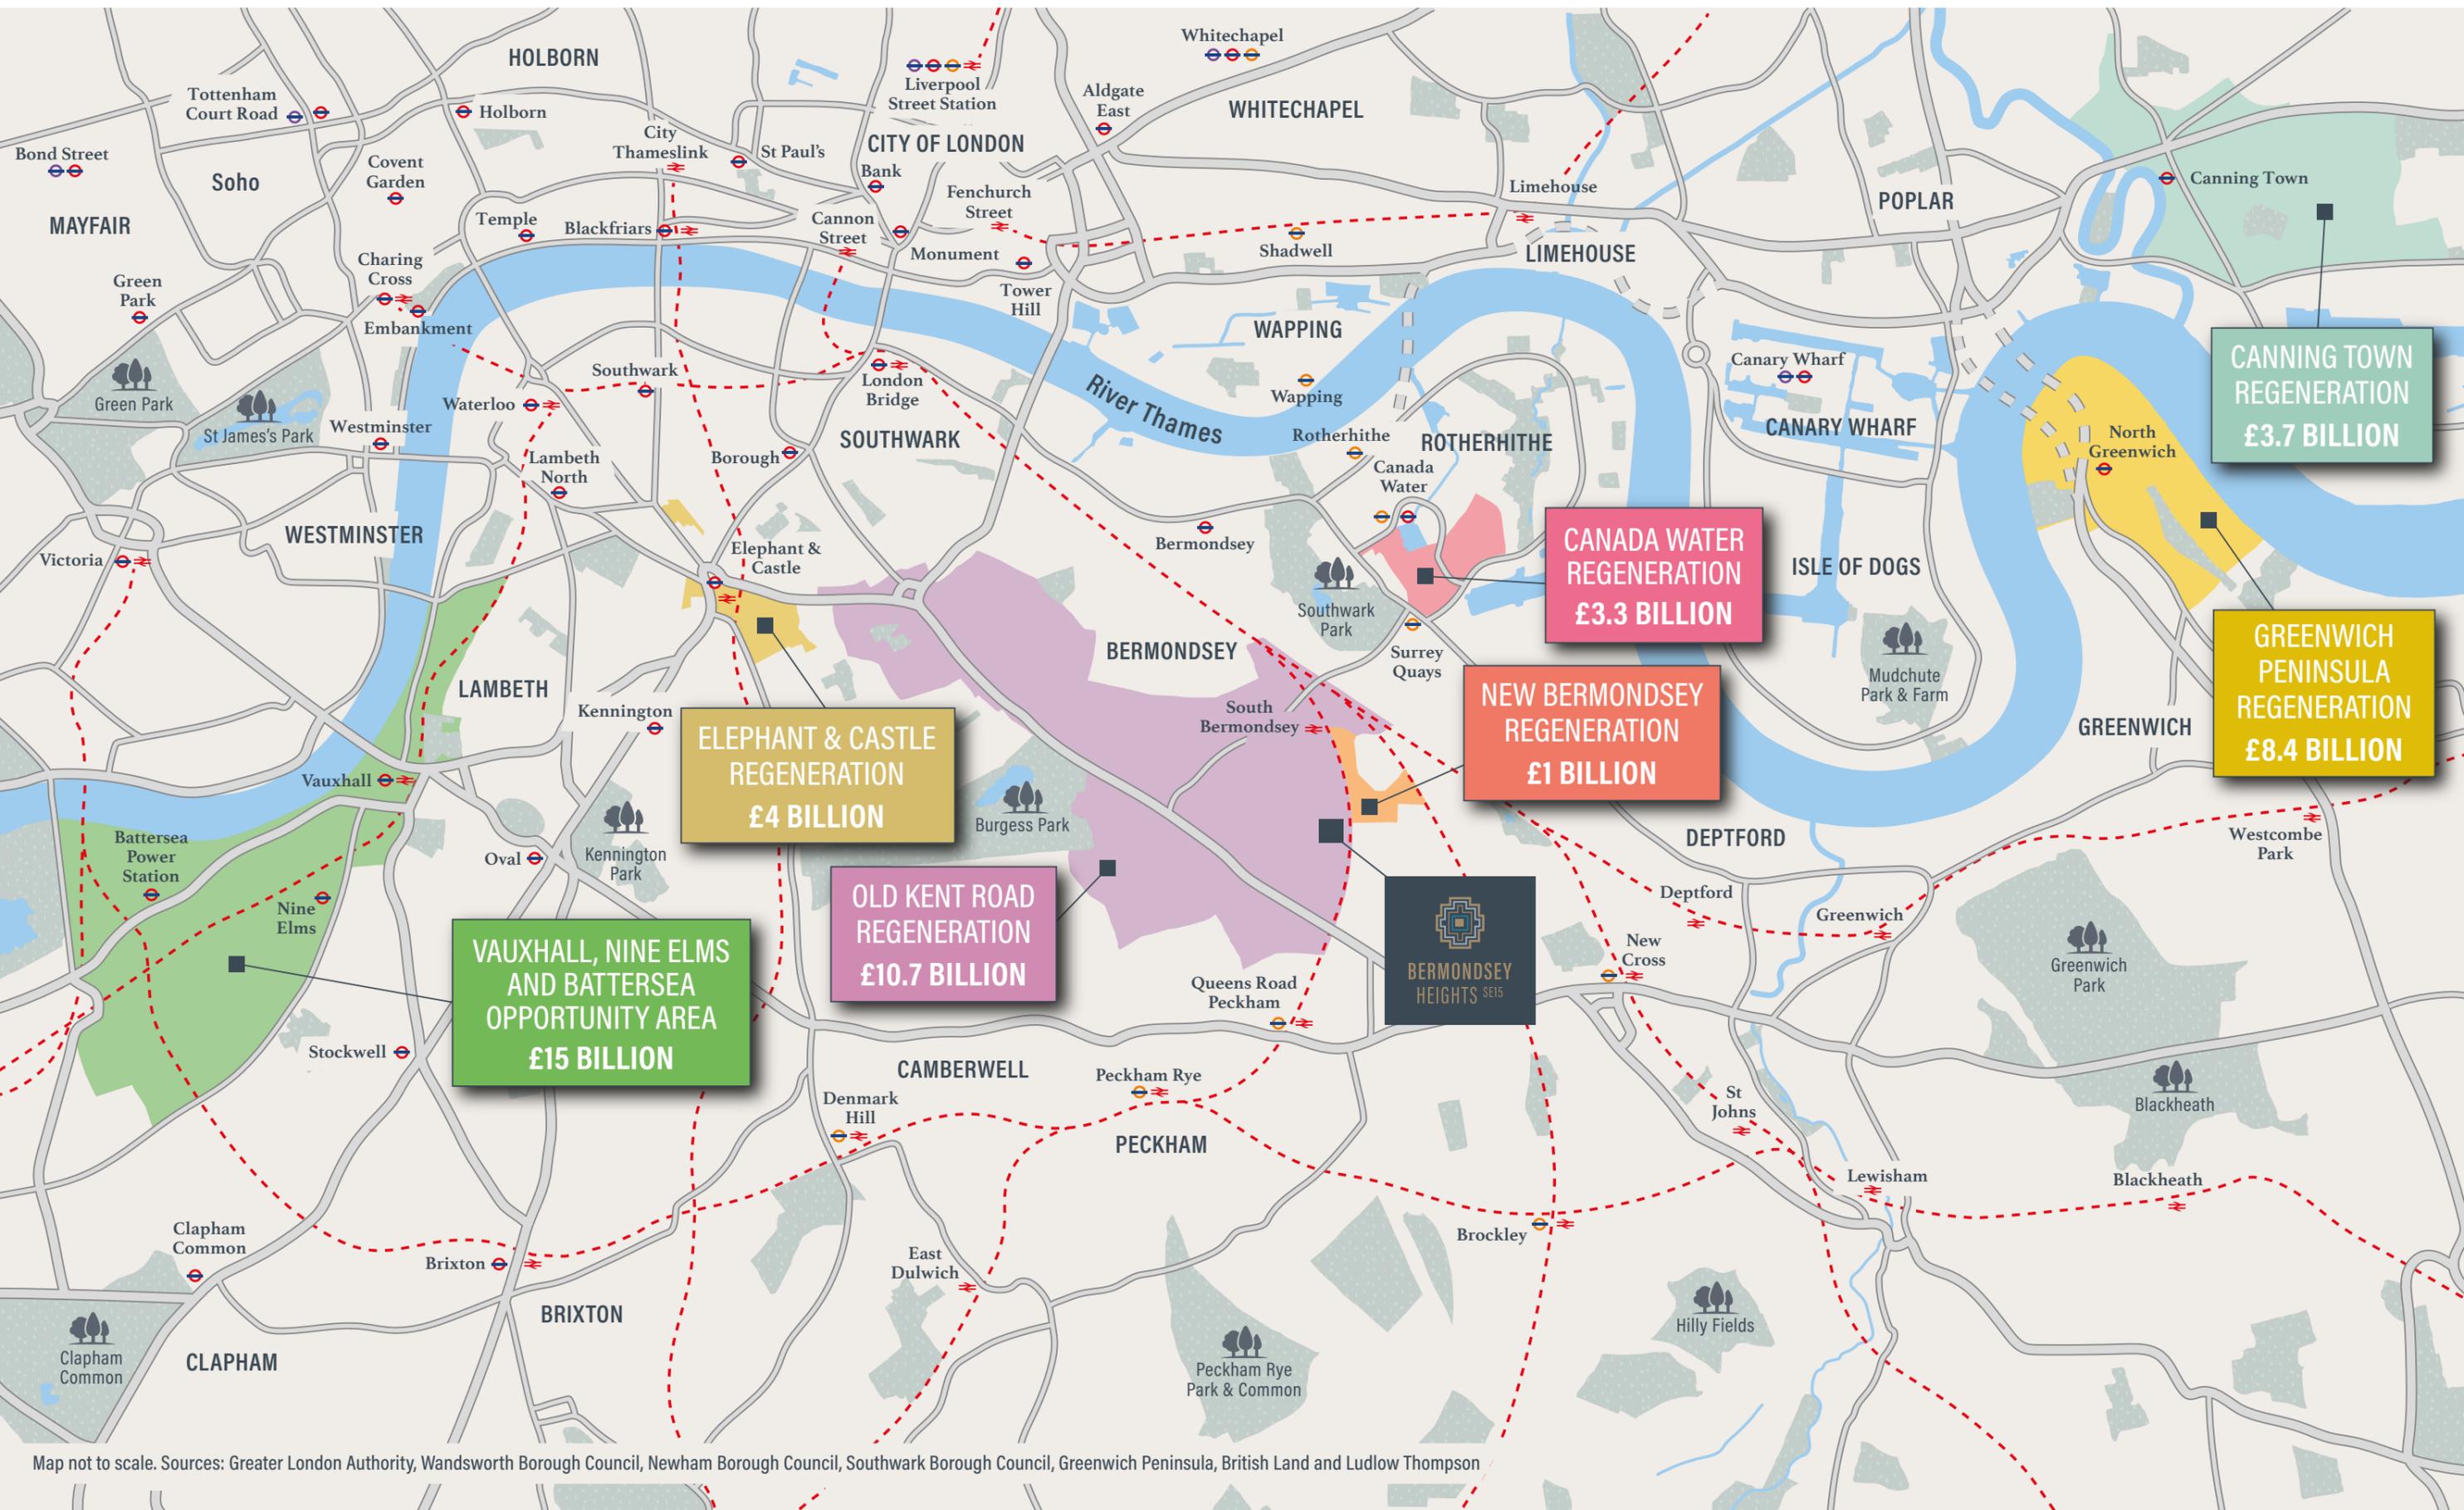

## CAPITALISE ON THE FUTURE

Analysis by JLL of regeneration schemes in London over the past decade shows they outstripped the baseline local house price growth by an average of 5% a year. With JLL forecasting that the area of Bermondsey will see significant price growth over the next five years, with rental value growth of 21.1%, Bermondsey Heights is ideally placed to capitalise on this 'regeneration effect'.

## NEW HOMES QUALITY CODE

Housebuilders and developers who build new homes will be expected to register with the New Homes Quality Board (NHQB). As long as a housebuilder or developer has followed the correct registration process, including completing the necessary training, introducing a complaints procedure, and following other processes and procedures that are needed to meet the requirements of this New Homes Quality Code (the code), they will become a registered developer.

Registered developers agree to follow the code and the New Homes Ombudsman Service, including accepting the decisions of the New Homes Ombudsman in relation to dealings with customers. If a registered developer does not meet the required standards, or fails to accept and act in line with the decisions of the New Homes Ombudsman, they may have action taken against them, including being removed from the register of registered developers.

The code sets out the requirements that registered developers must meet. The code may be updated from time to time to reflect changes to industry best practice as well as the decisions of the New Homes Ombudsman Service.

All homes built by registered developers must meet building-safety and other regulations. All registered developers should aim to make sure there are no snags or defects in their properties before the keys are handed over to a customer. If there are any snags or defects, these should be put right within the agreed timescales.

## WHAT THE CODE COVERS

For the purposes of this code, 'customer' means a person who is buying or intends to buy a new home which they will live in or give to another person. (If a new home is being bought in joint names, 'the customer' includes all the joint customers.) However, the New Homes Quality Board have also started work to consider other groups of customers and what they should be able to expect from a new home. This includes shared owners and people who are buying a new home to let to other people. Any changes the New Homes Quality Board make to the code to reflect the needs of other groups of customers will be developed through consultation, and they will continually assess and review the effectiveness of the code, and any new laws or regulations that apply. Other areas which are not covered by the code are claims for loss of property value or blight (where a property falls in value or becomes difficult to sell because of major public work in the area), personal injury or claims that are not covered by the scheme rules of the New Homes Ombudsman Service.

Nothing in this code affects any other rights the customer has by law and does not replace any legislation that applies to the new home. Customers do not have to make a complaint to the New Homes Ombudsman Service if they are not satisfied with a matter that is covered by the code. They may decide to take other action, such as through the civil courts or other ombudsman or regulator. We are on the New Homes Quality Code register of registered developers. "We" refers to the Barratt Developments PLC group brands including Barratt London, Barratt Homes and David Wilson Homes.
